Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what bothers them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a hobbyist storyteller / non-artist	create a complete, visually engaging comic	I cannot draw and writing	professional comic creation needs artistic	frustrated and discouraged, as my creative ideas stay unrealised

		from my own story idea	panel-by-panel scripts and dialogues takes a lot of time	skill, expensive tools and hours of manual work	
PS-2	a student / content creator	customise the tone and art style of my comic and download it in a shareable format	existing tools give generic, fixed-style output and don't let me regenerate the story and images with new preferences	most tools are template-based, with little personalisation of story, characters or visual style	limited in my creativity and unsatisfied with the final result
