

Project Design Phase

Problem – Solution Fit Template

Date	30 September 2026
Team ID	SWTID-2026-1429
Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ **Understand the existing situation in order to improve it for your target group.**

Template:

1. CUSTOMER SEGMENT(S) CS Who is your customer? I.e. working parents of 0-5 y.o. kids Aspiring comic creators, hobbyists, storytellers, students and casual users who have story ideas but little or no drawing skill.	6. CUSTOMER CONSTRAINTS CC What constraints prevent your customers from taking action or limit their choices of solutions? I.e. spending power, budget, no cash, network connection, available devices. No drawing or design skills; limited time; Gemini API key and Hugging Face token needed; image generation needs capable hardware; internet needed for Gemini calls.	5. AVAILABLE SOLUTIONS AS Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? I.e. pen and paper is an alternative to digital notetaking. Drawing comics by hand, comic-maker templates and apps, hiring an artist. Pros: full creative control. Cons: slow, skill-heavy, costly, or generic-looking results.
2. JOBS-TO-BE-DONE / PROBLEMS J&P Which jobs-to-be-done (or problems) do you address for your customers? There could be more than one; explore different sides. Turn a simple story idea into a complete illustrated comic. Get a panel-by-panel outline with narration and dialogue. Get matching comic-style images for every panel. Save the finished comic as a shareable PDF.	9. PROBLEM ROOT CAUSE RC What is the real reason that this problem exists? What is the back story behind the need to do this job? I.e. customers have to do it because of the change in regulations. Making a comic needs both writing and illustration skills, plus a lot of time. Non-artists have no easy end-to-end tool that turns one idea into story, dialogue and visuals together.	7. BEHAVIOUR BE What does your customer do to address the problem and get the job done? I.e. directly related: find the right solar panel installer; calculate usage and benefits; indirectly associated: customers spend free time on volunteering work (i.e. Greenpeace) Write story ideas in notes or notebooks, look for artists or templates, or try separate AI text and image tools and stitch the results together by hand.
3. TRIGGERS TR What triggers customers to act? I.e. seeing their neighbour installing solar panels, reading about a more efficient solution in the news. Having a story idea but no drawing skill; seeing AI-made art online; needing a quick comic for a project or post.	10. YOUR SOLUTION SL If you are working on an existing business, write down your current solution first, fill in the canvas, and check how much it fits reality. If you are working on a new business proposition, then keep it blank until you fill in the canvas and come up with a solution that fits within customer limitations, solves a problem and matches customer behaviour. ComicCraft: a web app where the user enters a story prompt, character name, setting, tone and art style. Gemini Flash outlines 5 panels, Gemini Pro writes narration and dialogue, and Stable Diffusion draws each panel. The user previews the comic online and downloads it as a PDF.	8. CHANNELS of BEHAVIOUR CH 8.1 ONLINE What kind of actions do customers take online? Extract online channels from #7 Search for comic makers and AI tools; AI and art communities, social media, video tutorials. 8.2 OFFLINE What kind of actions do customers take offline? Extract offline channels from #7 and use them for customer development. Word of mouth from friends and classmates; school or college clubs; sketching in notebooks.
